A clinic/health unit setting is intended to also serve as a healing environment. So there is also a trend to designing less clinical-looking spaces, and introducing more of a personal or homey feeling in individual patient rooms and admitting areas. Access to nature and the colors of nature also support healing.

Clinic / Health Unit | WBDG - Whole Building Design Guide

The already complex arena of healthcare facility design, construction, and operations is set to become even more complex thanks to forces ranging from changing laws and regulations to new technologies to shifting patient needs and preferences. The result, says a major healthcare architecture firm, is that seven design trends will have an impact on healthcare design in 2018 and beyond.
